

FALCON FOODSERVICE EQUIPMENT

THE CARE HOME KITCHEN SPECIALISTS

Helping You Deliver Nutritious and Delicious Meals

Why Falcon?

With a growing ageing population, demand for social care in the UK continues to rise. Good-quality, nutritious meals are of vital importance to the health and wellbeing of care home residents and the onus is on the caterer to be flexible enough to provide a good choice of nutritious meals that can accommodate patients' specific dietary requirements and preferences, while also being cost effective.

Falcon Foodservice has a longstanding reputation for supplying the perfect equipment to care homes and our products can be found in professional kitchens across the country.

Whether you need to replace existing equipment, add extra capacity or completely redesign your kitchen, our comprehensive product portfolio, experienced and knowledgeable support team and understanding of the unique requirements of the care home caterer makes us the ideal partner for all your catering equipment needs.

E3914i 4 zone induction range

Energy Efficiency - Falcon Products Save You Money

Energy costs continue to be a hot topic for everyone. We work closely with many of our suppliers to develop energy efficient units designed to minimise costs. Innovative products such as our Dominator Plus induction portfolio, which includes ranges, 2 and 4 zone boiling tables and a single zone table-top unit, provide significant savings in energy wastage, as well as delivering practical and operational benefits too.

Our combination ovens provide further savings. With the ability to perform 8 of the 12 methods of cooking, a combi offers incredible versatility and can take the place of several more specialised pieces of equipment, such as steaming ovens, and adding increased capacity within the same (or even a smaller) footprint.

Working Together

This is just a selection of our most popular products. Our comprehensive product range enables the caterer to configure their ideal cookline to suit their own unique demands. See our Product Price list for more details.

Product Portfolio

The key to success in any foodservice project is understanding the individual requirements of each care home. We can work with you to achieve the most practical solution based on aspects such as number of meals required, kitchen environment, budget, staff skill levels, special dietary requirements etc.

Adding Value with Falcon

Falcon Foodservice is the UK's leading manufacturer of professional catering equipment. We have a long history of providing care home kitchens with a comprehensive range of reliable, innovative and efficient products made to the highest quality standards in our modern manufacturing plant located in Central Scotland.

However, we are more than just a manufacturer and supplier of equipment - buying from Falcon is just the start of the experience. Award-winning customer service, responsive technical support and a team of highly knowledgeable and dedicated sales professionals are on hand to provide all of the information required to enable customers to make the right choice for their business.

Our experienced personnel have vast experience dealing with care home caterers – working together to create the ideal cookline to suit menu choice, providing demonstrations to ensure kitchen staff are able to effectively use the equipment and troubleshooting any issues that arise quickly.

Add to this a comprehensive product portfolio and an unrivalled UK-wide dealer network and it's clear why Falcon are the care home caterer's number one.

We are also members and active participants of all key UK public sector organisations, including the NACC so we are acutely aware of the ever-changing public sector landscape and your unique requirements. As an approved PRO5 supplier we attend regional and national meetings and conferences to ensure we are able to deliver the perfect solution to your kitchen requirements.
